Where do I need to return it to?

Associates who are leaving the company, returning a loaner device, or returning a laptop due to an early refresh can ship their hardware directly to the London Office addressed to IT - Endpoint Systems. Shipping labels can be requested using the [Global Logistics Center](#) (GLC). If you are leaving the company, please ensure you request your label PRIOR to your last day at Red Hat.

If you are returning an out of warranty PC refresh, please fill out [this form](#) instead to receive a prepaid label and box from our third party vendor.
